

# easypod® auto-injector device

**MERCK**

This leaflet has been created by Merck and it is intended for patients who have been prescribed Saizen® (Somatropin)  
UI-SAI-00157, May 2025

# Easy to use

- easypod® is an easy-to-use injection device.
- easypod® can display the instructions on how to use in the “Teach Me” section.
- Medication dosing and cartridges are already set for you.
- The device is easy for your child to hold, allowing them to inject themselves, once both of you are confident.
- A built-in skin sensor and hidden needle ensures easypod® only injects when used correctly.
